February 2016

Fundraising events help support Family Enrichment Network by raising money which helps us bridge gaps in funding. The funds we raise help to keep our programs and the children and families we serve strong and thriving. These events are an opportunity to spend time and build bonds with our many existing supporters, and to also build new relationships with businesses and individuals in our community. We look forward to a year of exciting, successful events and we hope that you will join us either as a participant, volunteer or a sponsorship partner.
